THE ARMY RESERVE'S GI BILL CAN MAKE YOU A PART-TIME SOLDIER AND A FULL-TIME STUDENT.

A part-time job in the Army Reserve has just become an even smarter way to work your way through college. The Army Reserve now has its own GI Bill, and if you qualify, you can receive up to $5,040 for college while you attend college.

But the GI Bill isn't the only valuable thing about being an Army Reservist. You'll also be paid for training in one of over 300 skills.

In addition, you'll earn at least $1,870 a year for serving two days a month (usually on weekends) at your local Army Reserve Center, and attending two weeks of annual training. And if you take out a student loan, you may qualify for a program that can help you repay it.

With the GI Bill to help with tuition, and your monthly Army Reserve salary to help with other expenses, you could earn over $16,000 for college in one enlistment.

If you'd like to know more about taking the Army Reserve's GI Bill to college with you, call toll free 1-800-USA-ARMY.

ARMY RESERVE. BE ALL YOU CAN BE.

About The Graduating Senior Test

The Graduating Senior Test is designed to evaluate the skills that students acquire in their general education program — those lower division courses that are required for all students. It is not meant to test knowledge from a specific major or discipline, but rather to evaluate the student's ability to receive information in a variety of formats, analyze the information, and respond to situations related to adult roles in society. During the test, you will view portions of newscasts and television productions, listen to music and radio broadcasts, look at art prints, and review advertisements, graphs, and blueprints.

Scores on the test will be returned to you along with information for comparison with a national senior reference group. The report will include an overall total score and also subscores in the following areas:

— Functioning Within Social Institutions
— Using Science and Technology
— Using the Arts
— Communicating
— Solving Problems
— Clarifying Values

A description of each subscore area is included with the score report.

Due to the special format of the test — television, tapes, and slides and the time requirements of the test, students with significant visual, hearing or manual impairments may be eligible for exemption. Handicapped students must request and be approved for exemption through the Director of Handicapped Services, 215 Scates Hall, prior to the last test date for any given semester.

VA EDUCATIONAL BENEFITS

IT IS THE STUDENT'S RESPONSIBILITY TO BE AWARE OF AND FULFILL ALL REQUIREMENTS FOR RECEIPT OF G.I. BILL BENEFITS.

Any student using VA Educational Assistance (G.I. Bill Benefits) at Memphis State University should contact the Office of Veteran's Services (Room 212, Scates Hall, 454-2996). New students should be prepared to furnish the following items as needed: an original or VA certified copy of their DD 214, or other armed forces separation papers, a copy of their Delayed Enlistment Contract, copies of their children's birth certificates, a copy of a divorce decree if either vet or spouse was previously married, their VA file number if benefits have been used previously, and a transcript from any college or university previously attended.

The VA places restrictions on those receiving veterans educational benefits. Some of these restrictions include: regular class attendence, satisfactory academic progress, and adherence to a specific degree program. The VA will not pay for repeated courses if the grade already earned is acceptable for graduation requirements and major objectives at this University (this includes transfer credit), or for elective courses in excess of those needed to meet graduation requirements.

Certification Reminders:

(1) Register with the Office of Veterans Services every semester by completing a Veteran Data Sheet and Certification Request.
(2) Report credit allowed for prior training in cooperation with your adviser by completing a "Request for Reevaluation of Prior Credit" form. These forms are available from the Office of Veterans Services.
(3) Inform the Office of Veterans Services of any changes in major or degree pursued, address, marital status, or number of dependents claimed.
(4) After registering, report to the Office of Veterans Services immediately all changes in class schedules including adds, drops, section changes, cancelled courses, and withdrawals.
(5) Obtain a degree posting sheet/formal degree plan from your adviser, and furnish a copy to the Office of Veterans Services, as well as keeping a copy for your personal files.

For more information on eligibility requirements, monthly pay rates, and other services available, contact the Office of Veterans Services.

ADMISSIONS PROCEDURES

New students planning to enroll for any credit course or on an audit basis must be formally admitted to the University. Admission to the University must be fully cleared before any registration is authorized. Any student who meets admission or readmission requirements after May 1 will not be assured of registration before the first day of classes. Any non-Tennessean who resides more than 150 miles from the University must file an application for admission or readmission prior to that date. Anyone failing to do so will not be assured of being considered for admission.

New Applicants

Applications for admission, detailed instructions concerning admission procedures, and regulations for all student levels may be obtained in the Admissions Office, Room 215, Administration Building. Information concerning graduate student admissions may be obtained in the Graduate Admissions Office, Room 216, Administration Building. After 4:30 p.m. and on Saturday mornings, these may be obtained in Evening Academic Services Office, Room 167, Administration Building, 454-2398.

Former Students

A former student is defined as a student who (1) has previously been enrolled at Memphis State but (2) was not enrolled during the previous semester. Most former graduate and undergraduate students seeking readmission must obtain an application for readmission from Room 167, Administration Building. Former undergraduate students entering Graduate School are not "former students" for readmission purposes. They are new graduate students who must be properly admitted to graduate school as new students by the Graduate Admissions Office, Room 216, Administration Building. All inquiries concerning appropriate readmissions procedures should be directed to the Readmissions Office.

Transferring Credit to MSU

In order for completed additional undergraduate course work to be transferred from another university and recorded on the student's permanent record, the student must request that an evaluation of the additional course work be completed by the Transfer Affairs section of the Admissions Office. After the student has been admitted as a regular undergraduate, whether he is a beginning freshman or a transfer student, it is recommended that he consult with his adviser or the Transfer Affairs section of the Admissions Office if he anticipates enrolling at another college or university for the purpose of transferring credit to Memphis State University. Information about the transfer of graduate credit may be obtained in the Graduate School Office, Room 315, Administration Building.

Residency Classification

All determinations concerning classification of in-state and out-of-state students for fee-paying and other purposes are made in the Office of Admissions. The determinations are based on the regulations and guidelines of the State Board of Regents. Copies of the guidelines and regulations used in the classification of students for fee-paying purposes are available in the Admissions Office, Room 205, Administration Building, 454-2344

Persons 60 Years of Age and Totally Disabled Persons

Persons suffering from a permanent disability which totally incapacitates such person from working at an occupation which brings him an income, and persons who will become sixty (60) years of age or older during the academic semester in which such persons begin classes, and who are domiciled in Tennessee, may AUDIT courses at Memphis State without paying tuition charges, maintenance fees, student activity fees, or registration fees. Admission to AUDIT will be limited on an individual classroom basis according to space availability.

Any person who is totally disabled, and persons who will become sixty-five (65) years of age or older during the academic semester in which such persons begin classes, and who are domiciled in Tennessee, may enroll for courses for credit at the cost of one half the normal per credit hour fee, not to exceed $75 per semester. The University Health Services shall examine certification of permanent disability (not the applicant) and determine the eligibility of the applicant under this legislation.

Inquiries concerning these programs may be addressed to the Records Office, Room 115, Administration Building, 454-2671.

REGISTRATION PROCEDURES

Registration dates for the three terms of the 1987 summer are found in the Registration and Summer Sessions Calendar. Specific details of these registrations are as follows:

First, Summer and Extended Terms: Students must register on June 2 or 3 for courses offered during the First and Extended Terms. Students may also register on these dates for courses offered during the Second Summer Term. The time on the "Registration Appointment Card" must be used for this registration. The specific dates for adding and dropping courses are in the Registration and Summer Sessions Calendar.

Second Summer Term: Students who have not previously enrolled for Second Term course may do so on July 13. Students are also permitted on this date to add and drop Second Term courses for which they have previously enrolled. A special "Add/Drop Appointment Card" is sent prior to the Second Term registration to all students who have previously registered for courses.

NOTE: Students registered for the First Term do not register for the Second Term. They add coures with a "Change of Course" application.

IMPORTANT:

1. Read carefully all instructions found in your registration materials.
2. Registration on June 2 or 3 will insure class space in the course being taught in the Second Summer Term.
3. Students registered for the First Term or Extended Term do **not register again** for the Second Term. They add courses with a "Change of Course" application.

Students who do not register on June 2 or 3, but who wish to register for Second Summer Term courses must report at the times indicated on the card accompanying the registration materials.

A $5 add/drop charge is not charged on course changes processed on July 13. The charge will apply to adds/drops processed at any other time during the scheduled add/drop period. Students who fail to register during the regular registration periods may do so during the late registration periods. A $10 late registration fee is charged.

(1) CONSULTING WITH ACADEMIC ADVISER

Current Students

Current Memphis State University students are encouraged to see their academic advisers well in advance of registration, preferably during the preceding term when ample time can be given for general academic advising including assistance in selection of courses for the ensuing term. This is not always possible for new and returning students and for some current students. However, all students are required to have a class schedule with an adviser's signature prior to entering the registration center.

To find where an adviser will be located for assistance in class scheduling, go to the Packet Center located in Mitchell Hall, when it is open, and in the Late Registration Center, during the late registration period. Please consult the registration calendar for dates and times these Centers will be open.

During late registration academic advising occurs in the academic department, where faculty advisers are generally available except when they are teaching. Assistance in locating an adviser can be obtained in the Department Offices. Current graduate non-degree students should secure their approved class schedules from one or more of the designated advising office locations. (See "New and Readmitted Students [Graduate]" section.)

Handicapped Students

Preferential scheduling is offered to students whose academic planning must take into account mobility, medical or educational factors directly related to a disability. Generally, this includes students with handicaps of mobility, vision, hearing and those with specific

learning disabilities such as dyslexia. In addition to simplifying the registration process, preferential scheduling allows students to get a particular class schedule so that disability-related needs can be planned in advance. Personal attendants and academic aids who are employed by handicapped students are also eligible for preferential scheduling so that their work and class schedule can be coordinated to accommodate the disabled students for whom they work. Students requesting this service must be approved by the Handicapped Student Service Office.

Preferential scheduling is begun prior to regular registration. Students using this procedure should see their adviser, fully complete the "Student Schedule" form and take it to the Handicapped Student Service Office well in advance of the beginning of registration. (Please check with the Handicapped Student Service Office regarding deadlines for turning in class schedules.) The desired class cards will be pulled before registration and will be held in the Handicapped Student Service Office where students are to pick them up just prior to going through registration. No cards will be released earlier than one half hour before the student's registration appointment time assigned in the registration packet. Handicapped students may go through registration at any convenient time **after** the assigned appointment time. However, they should not pick up their cards until a half hour befor they plan to register.

Some disabled students find Late Registration easier to manage because of smaller crowds and the close proximity of all registration functions. Students who can manage regular registration are encouraged to do so. However, those who need to go through Late Registration because of physical considerations may request a waiver of the late fee on the basis of handicap if **their cards were pulled in advance**. Any student who requires assistance with the process of registration should direct their request to the Handicapped Student Service Office two days in advance of their registration appointment.

If a student for whom cards are pulled in advance should for some reason decide not to complete registration, notification must be given to the Handicapped Student Service Office so the reserved cards may be returned to the departments for use by others.

For further information, please contact the Director of Handicapped Student Services, Room 215, Scates Hall, or call 454-2880 (Voice and TDD).

New and Readmitted Students (Undergraduate)

All new freshmen students and transfer students without an academic major will be assigned to the Academic Counseling Unit, located in Scates Hall, and should go to the unit immediately after admission to the University to request the assignment of an adviser. Students who have not seen an adviser will be assigned one.

Students who have been readmitted and have selected a major should contact the department of their major for the assignment of an adviser. Readmitted students without a declared major should go to the Academic Counseling Unit. This should be done in advance of the first day of registration.

Evening (Undergraduate)

New and readmitted undergraduate students **enrolling in evening and/or Saturday courses only** may obtain the required registration and advising information in the Evening Academic Services Office, Room 167, Administration Building. The office hours are 12 noon–8:00 p.m., Monday through Thursday and 8:30 a.m.–12 noon on Saturday. (Packet Center hours during registration.)

Unclassified, Special Undergraduate, and Audit Students

Undergraduate students who are unclassified, special undergraduate, or audit go to the Academic Counseling Unit, Scates Hall. Evening students in these categories go to the Evening Academic Services Office, Room 167, Administration Building for advising assistance.

New and Readmitted Students (Graduate) — Day & Evening

New graduate students are directed to an adviser following their admission. Readmitted graduate students having a major should contact the department of their major for the assignment of an adviser.

Students classified as Graduate Non-degree are required to obtain enrollment restriction information from each of the advising office locations representing the college in which the student plans to enroll in undergraduate or graduate coursework. Graduate Non-degree advising office locations are as follows:

College	Office	Location	Telephone
Arts & Sciences	Dir Graduate Studies	MI 213	454-2253
Business & Economics	Dir Graduate Studies	BB 426	454-2431
Communication & Fine Arts	Dean	CFA 232	454-2350
Education	Dir Graduate Studies	ED 215	454-2352
Engineering	Dir Graduate Studies	EN 201	454-2171
Dept of Audiology Speech Pathology		807 Jefferson Memphis, TN	525-2682
MSU Jackson Graduate Center		Jackson, TN	(901) 427-4725

Graduate non-degree students may enroll in selected courses on a space available, departmental approval basis only.

Graduate students should not attempt to secure an adviser's slip from the Academic Counseling Unit, Scates Hall.

(2) OBTAINING REGISTRATION MATERIALS

The registration packet consists of four basic materials: (1) "Student Information Form," (2) "Registration Appointment Card," (3) "Registration Receipt," and (4) a permanent ID card.

Current Students

Registration materials are mailed to the permanent address of all regular students currently enrolled, with the exception of those suspended for academic reasons, those who are on academic probation, and those who have holds placed on their packets by a University office. When a hold is released, the student is given a release card which tells where and when to secure his packet.

New and Readmitted Students

New and readmitted students who have cleared all admission requirements at the time registration materials are prepared, receive their materials by mail. Students not clearing in time to receive their materials by mail are given a chance to obtain materials before the actual day of registration and receive instructions on how to accomplish this.

(3) SECURING CLASS CARDS

Students having their "Student Schedule," permanent ID card, and registration materials, are prepared to enter the Registration Center to obtain class cards and to pay fees.

Registration appointment times — Enter the Registration Center on the date and time printed in the upper right hand corner of the "Registration Appointment Card." Registration priority is based on cumulative hours earned. The student may enter at any later day time after his day appointment time or at any later night time after his night appointment time.

REGISTRATION PRIORITY

Since it is not feasible for all students to register at the same time, it is necessary to establish priorities in the assignment of registration times. Registration priority and the registration appointment times appearing on registration materials are based on the number of cumulative hours earned.

Registration materials must be prepared before the end of the term that immediately precedes registration. **Appointment times do not reflect hours earned during the current term.** For example, registration times for the spring semester are not affected by hours earned during the fall semester.

Registration priority and associated registration appointment times will not be based on the need to work because such a large number of students do work. No practical or equitable way exists to administer a priority system on the criterion of a student having to work.

Unclassified students will be awarded registration appointment times on the basis of hours earned at Memphis State University only.

Seniors not holding an undergraduate degree who are taking degree credit courses have priority over special undergraduate students (those who hold degrees) when enrolling for undergraduate credit courses.

Special Courses

Credit/No-Credit Courses — Certain undergraduate students, **with permission from the dean of their college,** may elect to take some courses on a credit/no-credit basis. Details are found in the undergraduate *Catalog*.

Procedures for registering are as follows: (1) Obtain permit form from academic adviser, complete information on the form, and secure adviser's signature; (2) Get permission of the dean of their college; (3) Go to the office of the chairman of the department in which the course is taught and secure his approval; (4) Obtain "Class Card Request" form; (5) Take completed permit form and "Class Card Request" to the Registration Center at the appointed registration time.

Audit Courses — The student must: (1) Obtain academic adviser's approval; (2) Go to the department in which course is taught and pick up "Class Card Request" form; (3) Take the "Class Card Request" to the Registration Center at the appointed registration time. Fees for audit courses are the same as for credit courses. Students may not change from a grade point basis to audit or from audit to a grade point basis after the last day to add classes. Further details on audit courses are found in the undergraduate and graduate *Catalog*.

Late Registration

Students registering during the day at the Late Registration Center must go to departments to obtain class cards. Cards are at the Center during evening late registration hours.

ID CARD

ALL STUDENTS MUST OBTAIN A PERMANENT MEMPHIS STATE UNIVERSITY ID CARD BEFORE THEY WILL BE ALLOWED TO REGISTER. THIS INCLUDES PART-TIME STUDENTS, EVENING STUDENTS, UNCLASSIFIED STUDENTS, ETC.

The University issues to each student an identification card which bears his photograph, social security number, and certification that he is enrolled as a student in the University. The card is required for registration, the borrowing of library books, and other purposes. The card remains the property of the University and will be surrendered upon the request of a University official.

A current student who has lost his or her card may obtain a replacement from the Dean of Students Office, Room 204 Scates Hall. A student will be charged $10.00 to replace a card that has been damaged, stolen, or lost. A charge of $2.00 will be made to make any change in data on a card. Students unable to obtain an ID card at an off-campus or special registration must go to the Records Office to have one made.

Part-time students who are enrolled for at least six semester hours of credit courses will be given full-time ID card validation. ID card validation of full-time is for student activity purposes and does not necessarily constitute a full-time academic load.

For information concerning the number of hours required for a full-time academic load, consult the Memphis State University Bulletin.

A credit hour load equal to one-half of that for the minimum full-time credit hour load qualifies as half-time academic load.

(4) PAYING FEES

Students should not enter the Registration Center unless they are prepared to pay fees. Registration is not completed until fees are paid. Students receiving VA assistance are expected to pay fees in full. Students holding scholarships, student aid, or billing authorizations for this term should stop at the "Scholarship" or "Authorized Billing" stations in the Fee Payment Center. Students will not have their names placed on the class rolls until after all fees are paid.

Students may not register until all outstanding financial obligations have been cleared.

"No More Checks" Status

Students who have had more than one returned check in the past twelve months and students who have tendered a returned check for payment of registration fees will be on a NO-MORE-CHECKS status and payment by personal check will not be accepted. Students on a "NO-MORE-CHECKS" status should be prepared to pay registration fees in cash, cashiers check or certified check.

Returned Checks

It is expected that a check given to the University, for any reason, will by honored by the bank on which it is drawn. A check dishonored by the bank on which it is drawn may be presented a second time at the discretion of the University. A $10.00 returned check charge will be assessed for all checks returned. Returned checks, used as payment of registration fees, which are not promptly redeemed, will result in the deletion of the student from the class rolls. The privilege of making payments for fees and charges by personal check and check cashing privileges will be revoked for any student who has had more than one returned check within twelve months for a period of one (1) year from the date the last check is redeemed.

FEES AND DEPOSITS

The listing of these fees in this publication does not constitute a contract between the University and the student. As a condition of registration, each student will pay the fees in effect at the time he or she registers. Fees are subject to change without notice. Persons 60 years of age and totally disabled persons should refer to the sections of this publication covering their registrations.

Application Fee

Each student submitting an application for admission to the University must pay, at the time he submits his first application, a one-time non-refundable fee of $5.00.

Maintenance Fee

All students, whether resident or non-resident, pay a maintenance fee. Maintenance fees are assessed on course level. Students paying the fee for six or more hours are entitled to admission to home athletic events and certain health services, concerts, plays, social and other student-sponsored activities, and a subscription to the student newspaper, *The Helmsman*.

STUDENT FEE REFUND PROCEDURES

Maintenance Fees, Out-of-State Tuition, Music Fees

The following refund percentages apply to students who withdraw from the University or who drop to an hourly load below full-time.

1. 100% Refund: A full (100%) refund of fees will be made for courses cancelled by the University and for second Summer classes dropped on or before July 13, 1987.

During the normal 25% refund period, 75% of the Student Activity Fee will be refunded.

After the end of the normal 25% refund period there will be no refund of the Student Activity Fee.

The University refund policy is based entirely upon the official date of the withdrawal or change of course which would result in a refund. Refunds beyond the specified date or percentage will not be made for reasons such as employment conflicts, health or medical problems, moving out of town, or other reasons which are beyond the University's control or responsibility.

Note on the semester calendar in the *Schedule of Classes* that the refund period ends earlier than the final deadline for dropping a course or withdrawal.

Refunds will be processed beginning approximately three weeks after classes begin. Fee assessments and refunds for the summer sessions (first, second and extended) are calculated separately for each session. Each session has refund deadlines, last day to add, last day to drop or withdraw, and other important dates listed in the term calendar in the Schedule of Classes. It should be noted that the dropping and adding of classes between these sessions may result in the assessment of additional fees. All fee assessments are made manually during registration and during adding and dropping of classes. Official fee calculations will be made later by computer; any underassessment will be billed to the student, and any overpayment will be refunded.

Students enrolled in one course who wish to drop must withdraw from the University.

Schedule conflicts — Each student is responsible for preventing conflicts in the scheduling of his classes. *Students should check each class card which they are issued to insure that the course and section numbers, time and credit agree with what they requested.* Students will be assessed a "change-of-course" fee if it is necessary to make changes because of a scheduling conflict or because of having the wrong class card. Students should be careful to check the schedule for course offerings that might have been changed. Up-to-date information may be obtained during registration.

The Vice President may pursue one of the following: (1) a written warning; (2) a written reprimand to be placed in the accused's personnel file; (3) other disciplinary action short of termination; or (4) recommend to the President termination. In the case of a written warning or reprimand, the accused shall have the right to have a concise statement of rebuttal placed in his personnel file. If the accused is a faculty member and if the President chooses to pursue termination, he will inititate proceedings according to the State Board of Regent's Policy on Academic Freedom, Responsibility, and Tenure.

PRIVACY RIGHTS OF PARENTS & STUDENTS NOTICE TO STUDENTS

The Family Educational Rights and Privacy Act of 1974, with which the University intends to comply fully, is designed to protect the privacy of education records, to establish the right of students to inspect and review their education records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with The Family Educational Rights and Privacy Act Office (FERPA) concerning alleged failures by the institution to comply with the Act.

Provisions for the release of information about students and the rights of students and others to have access to Memphis State University education records are as follows:

A. Release of Personally Identifiable Student **Education Records.** Memphis State University shall not permit access to or release of any information in the **Education Records** which is specifically identifiable as referring to any student, other than Directory Information, without the written consent of the student to any party other than the following:

1. MSU officials and staff who have legitimate educational interests, including academic excellence, honor societies, and fraternities and sororities. Written requests from such officials or organizations shall be sent to the Records Office, and proper identification will be required.
2. Officials of other schools in which the student seeks admission, if the student has executed a release form to that institution. (At a later date a request for academic information from another institution of learning indicating the reason will be honored as a matter of inter-institutional courtesy.)
3. Appropriate persons in connection with a student's application for or receipt of financial aid.
4. Federal or State officials as defined in the regulations concerning this law.
5. State and local officials authorized by State statute adopted prior to November 19, 1974.
6. Organizations conducting studies for, or on behalf of, Memphis State University for the purpose of assisting in accomplishing the University's stated goals, and when such information will be used only by such organizations and subsequently destroyed when no longer needed for the intended purpose. The Dean of Admissions and Records or his designate must approve requests of this nature.
7. Accrediting organizations to carry out their functions.
8. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954. (Note: Husband or wife cannot get records of his/her spouse regardless of dependency.)
9. In compliance with judicial order or subpoena after the University has made a reasonable effort to notify the student.
10. Appropriate persons in connection with an emergency if such knowledge is necessary to protect the health or safety of a student or other persons. Verification of the conditions involved will be fully documented.

Note: All individuals and agencies who have requested or obtained access to a student's record (except as stated in A 1-7) will be noted in a record which is kept with each student's closed file. A request must be in writing stating the purpose of the request. This record will also indicate specifically the legitimate interest that the person or agency had in obtaining the information, and the information made available will be limited to that necessary to satisfy such demonstrable needs.

B. Definitions:

— **Educational Records.** "Educational Records" is defined as those records, files, documents, and other material which (1) contain information directly related to a student; and (2) are maintained by Memphis State University or by a person acting for the University. They do not include: (1) personal notes; (2) records available only to law enforcement personnel; (3) employment records; (4) medical, psychological, and psychiatric records (these are accessible to the student's physician); (5) and records containing only information relating to a person after that person is no longer a student at the University. An example would be a record of accomplishments of an alumnus of the University.

— **Student.** A student is any person who is or has been enrolled at Memphis State University. Wherever "student" is used in reference to personal rights, an eligible parent of a dependent student has similar rights. This "eligible" parent is one who has satisfied Section 152 of the Internal Revenue Code of 1954, and who presents proof of such to the custodian. Normally, this will be notarized affirmation by the parent declaring that the student is a dependent for Federal Income Tax purposes.

— **Directory Information.** "Directory Information" is defined as: The student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous education agency or institution attended by the student, the student's full- or part-time status, and the student level. At the time a student registers for courses, the student may personally deliver to the Records Office a written request that directory information for that student may not be released. This notification is effective only for the one semester for which the student is then registering. Such information will then be withheld if the request is received within 14 days after the beginning of classes.

— **Access.** To have access to an "Educational Record" is to be allowed to see the original record. It implies the right to obtain copies of that record.

— **School Officials.** School officials are those University employees with general or specific responsibility for promoting the educational objectives of the University.
Employees whose responsibilities place them within this category include: teachers; faculty advisers; admissions counselors; academic advisers; therapeutic counselors and vocational counselors; degree analysts; employment placement personnel; deans, department chairmen, directors, and other administrative officials responsible for some part of the academic enterprise or one of the supporting activities; administrative and faculty sponsors of officially recognized clubs, organizations, etc.; members, including student members, of committees appointed by the President; and clerical personnel employed to assist University officials in discharging professional responsibilities. Access by these officials is restricted where practical only to students for whom they have professional responsibility and only to that portion of the student record necessary for the discharge of assigned duties.

— **Legitimate Educational Interests.** Legitimate educational interests are defined as those interests which are essential to the general process of higher education prescribed by various legislative acts and the body of policy adopted by the governing board. Legitimate educational interests would include teaching, research, public service, and such directly supportive activities as academic advising, general counseling, therapeutic counseling, discipline, vocational counseling and job placement, financial assistance and advisement, medical services, and academic assistance activities.
In addition, the University officially recognizes appropriate co-curricular activities which are generally supportive of overall goals of the institution and contribute generally to the well-being of the entire student body and specifically to many individuals who participate in these activities. These activities include varsity and intramural sports, social fraternities and sororities, honorary and academic fraternities and sororities, departmental clubs, professional fraternities, special interest clubs, and student government.

C. Procedure for Gaining Access to **Educational Records.**

— To gain access, the student must request the custodian to allow him to peruse the "Educational Record," which request will be granted within a reasonable period of time. The student may ask for an explanation and/or copy of his "Educational Record." Examination will be permitted under conditions which will prevent alteration or mutilation of the record. A student must present proper identification upon request. Documents submitted by or for the student in support of his application for admission or for transfer credit will not be returned to the student nor sent elsewhere.

— If the student believes the "Record" content to be inaccurate, he may submit a request for amendment of his record. Normally such matters will be satisfactorily settled in the course of

informal discussion with the student. When this is not the case, the request and the challenge must be presented in writing to the record custodian who will inform the student of his decision within 45 days and of his right to a hearing. The student may then submit a written request for a hearing to the Dean of Admissions and Records who will (1) appoint an Appeals Committee consisting of four "Record" custodians (none of whom is custodian of the "Record" in question), with one of the four designated as chairman, and (2) designate a time and place for the first meeting and inform the student of the same.

— The Appeals Committee will convene with the student within 45 days from the date of the request, allowing the student, or his parents if the student is a dependent, to present relevant evidence. The student may be assisted or represented by counsel of his choice and at his own expense. A written decision based solely upon evidence presented at the hearing will be given the student within 45 days after the conclusion of the hearing, including a summary of the evidence and reasons for the decision and notification of his right to place a statement in the "Educational Record." Thereupon, the student may submit to the Committee a written explanation to be inserted into the "Record."

Note: This procedure does not provide for a hearing to contest an academic grade.

D. Right of Access Does Not Include:
   1. Financial records of parents or any information therein.
   2. Confidential letters and statements of recommendation which were placed in the "Educational Records" prior to January 1, 1975.
   3. "Records" to which access has been waived by a student.

E. No University office receiving student information shall, and all agencies receiving student information will be advised not to, release the information to another party without the written consent of the student.

F. The University retains all rights to the student's academic record and may withhold transcripts of the record because of unfulfilled obligations to the University.

G. Eligible students and parents have the right to file a complaint with the Department of Education concerning an alleged failure by the University to comply with the "Privacy Rights of Parents and Students" Act. Students may also file a complaint against the University in the office of the Dean of Admissions and Records. A copy of the Act may be read in the offices of the Associate Dean of Admissions and Records (Records), the Dean of Admissions and Records, or the University Counsel.

COMING ATTRACTIONS

BY DAVID WILD

In Spring, a student's fancy turns to thoughts of popular culture. And this semester, there will be plenty of movies, music and books to occupy those thoughts. Here's the best of the new that is coming this way.

Take heart, Heart fans! Their new album on Capitol is due in March.

Music

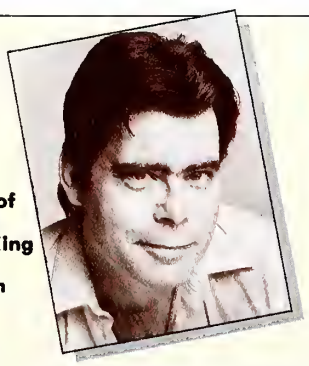
• More than four years after the release of *Thriller*, Michael Jackson will put out his latest album for Epic. The record is rumored to include contributions from Run: DMC and Barbra Streisand, and director Martin Scorcese has filmed a video for one song. • Prince is expected to deliver an album (possibly a double-album set) for Warner Brothers—this time without The Revolution, who have been backing him for years.

• U2—the epic Irish rockers who stole the show at last summer's Amnesty International Benefits—will return with a new album on Island produced by Brian Eno and Daniel Lanois, the team behind the group's 1985 smash LP, *The Unforgettable Fire.* There are also plans for a tour of the States, though it may not get under way until summer. • Members of U2 will also be heard on the long awaited solo debut by Robbie Robertson, former leader of The Band. Reportedly, Peter Gabriel will also appear on Robertson's Warner Brothers release.

• David Bowie fans can expect a new record sometime in April. A summer tour will reportedly follow. • Former Wham-ster George Michaels will make his solo debut on Columbia. • Fans of the Who can expect *Who's Missing, Volume 2* (MCA), as well as the latest record on Atlantic from Roger Daltrey, and Pete Townshend's *Scoop Volume II.* • Tom Petty and the Heartbreakers step out on their own with a new MCA album that's due March 30. • And look out for Manhattan Record's March release of *Freedom—No Compromise,* the latest effort of former Springsteen sideman Steve Van Zandt. Van Zandt—the gutsy fellow behind the explosive *Sun City* protest record—will no doubt continue to rock with political conviction on tracks like "Native American," a duet with his Bruceness, and "Bitter Fruit," a pairing with Ruben Blades (*Crossover Dreams*).

Be Grateful

The Grateful Dead will release their first new studio album since 1980's *Go To Heaven* on Arista this Spring. • Canadian stadium rocker Bryan Adams is expected to release another radioactive disc on A&M in March. • And Ozzy Osborne will hit the racks with yet another of his vinyl gross-outs on Epic. • And Pink Floyd seem headed for a battle of the bands: Guitarist Dave Gilmour and



The King of Suspense: Stephen King strikes again with Misery (Viking).

LOOK WHO'S MANAGING THE MONEY NOW!

College investment clubs offer students the kind of hands-on experience that only making or losing real money can buy.

BY DEIDRE SULLIVAN

You walk into the student activities center and see a poster that asks in big, bold letters: ARE YOU FEELING BULLISH TODAY? Ahh, you think, the football team is recruiting fullbacks again. But then you read the smaller print. It's a recruitment drive alright, but the team being assembled is called an investment club, and it's not going to play football . . . it's going to play the stock market.

College investment clubs, comprised of students with an interest in finance who invest real money in the financial markets, are springing up on campuses across the nation. Students in some of these clubs are using their own money to make investments. In other clubs, the money is provided by endowments or school administrators. But however they are funded, club members and educators say these clubs are providing students with a realistic view of how money works in the 1980s.

Just 20 years ago, college students who understood the word bullish were most likely a few sons and daughters of stock brokers. Conversations about bonds probably had more to do with friendship than finance, and rumors about takeovers usually meant a radical group was going to occupy a university dining hall. But today, learning-by-doing, or rather learning-by-spending, is in style.

Profit Not A Dirty Word

"Profit is no longer a dirty word," says John Zdanowicz, chairman of the Department of Economics and Finance at the Rochester Institute of Technology (RIT). "Students today are very different from students in the 1960s. They are much more pragmatic, more career-oriented."

RIT, situated in upstate New York, is one of the many colleges that sponsor investment clubs. The club's operation is simple. The administration has set aside $10,000 for a fund to start the club, which any undergraduate may join. Members meet once a week, like an actual investment firm. Stocks, bonds and other investment instruments are studied and each student analyzes a specific industry, such as healthcare or high tech, and makes recommendations to the club.

"The fact that we are using real money has forced me to pay attention to the economy and to study current events," says one new member. Last year the club's hard work paid off as members recorded an 11% profit on their holdings.

What happens if the club makes a bad

investment and loses the money it invests? At RIT, win or lose, the administration sees the fund as money well-used. "It's part of the learning process," says Mr. Zdanowicz. "This fund is like a laboratory. Our biology majors dissect an animal and discard it. Chemistry majors mix chemicals and then dump them down the drain. A loss in the market is similar to these sort of cash outflows. But with the investment club, the opportunity to profit exists as well."

The students at RIT employ quantitative analysis when studying the market. In fact, plans are being made to purchase a Quotron, a computer system that shows up-to-the-minute stock prices.

Using state-of-the-art computers is standard practice wih many investment clubs. At Bryn Mawr College, in Bryn Mawr, Penn., investment club members use the LOTUS 123 software system to chart stock fluctuations. This is the same system used by many Wall Street firms.

The Bryn Mawr Student Investment Committee, better known on campus as SIC, was established in 1974 with an alumna's anonymous gift of $100,000, making it the most generously endowed club of its kind in the country. Observers believe it could be the best managed club as well because SIC has consistently generated a profit. In fact, the club's original portfolio has almost doubled in size and last year the club did better than Bryn Mawr's professionally-managed pension fund.

The portfolio managed by SIC is divided by thirds, into high, medium, and low risk stocks. The more than 40 members split into groups and study companies according to the risk categories. "This year, a number of students with science backgrounds joined the club," said SIC Director, Ellen Ginsberg. "They bring interest and even expertise to the research and analysis process. Consequently, the club is well-informed in areas like bio-technology, healthcare, and chemicals."

In addition to analyzing companies and industries, SIC members are required to give special reports to the club. Last fall, one student made a presentation on mergers and acquisitions, explaining to club members why one company would want to buy another. As with most investment clubs, SIC members are expected to read relevant publications. Because Bryn Mawr is close to New York, SIC members occasionally visit Wall Street firms and meet with successful alumni. Says one SIC member, "I got the chance to make real job contacts where I never had them before."

Managing a $100,000 portfolio is a great deal of responsibility. As with RIT, the Bryn Mawr administration maintains a hands-off policy with regard to the club's activities. "We are pretty much left on our own," says Ms. Ginsberg. "That's not to say we're not accountable for our activities. On the contrary, at the end of each semester we are obligated to make a full report of our activity to the school's treasurer, to the president, and to the donor's attorney." As with most campus investment clubs, all profits generated by the SIC are returned to the fund.

Bryn Mawr isn't the only college where a large amount of money has been donated anonymously for the purpose of establishing an investment club for students. An unnamed donor gave $75,000 each to two California colleges, Stanford University and Occidental College, with the stipulation that the money be used to fund investment clubs.

The clubs, both named after financier Charles R. Blyth, operate differently than most other campus investment clubs. At Bryn Mawr and at RIT, anyone can join. But at Stanford and Occidental, students must compete for membership in the club. Last year more than 100 students applied for 18 spots on the Stanford club.

Members of the Stanford group meet twice a week and essentially are responsible for managing and investing the $75,000 fund. Like their East Coast counterparts, students at Stanford visit nearby financial exchanges and meet with alumni who actually work in the market. Students will also spend time touring companies in Silicon Valley, the so-called home of high-tech. Last year, the Blyth Fund registered a 2% profit.

Stanford and Bryn Mawr, with their well-endowed clubs, are unique. At other schools, students have learned that the next best thing to spending someone else's money is spending their own. Wesleyan, Brown, and Franklin & Marshall are just a few of the schools where students have started "private" clubs. "Anyone can join our group, even teachers," says Nadine DeLuca, secretary of Wesvest, the investment club at Wesleyan University in Middletown, Conn. "At the beginning of the year, we offer shares for $80 and half shares for $40. Like other clubs, we study companies and vote on which stocks to buy. Since we are using our own money, at the end of the year, we split the profits or share the loss."

Wesvest was started two years ago when a group of fraternity brothers became curious about the stock market. Today, there are more than 40 Wesvest members. Because their fund is small, and the scale of their portfolio limited, Wesvest members purchase only OTC (Over the Counter) stocks. OTC is the newest exchange on Wall Street and OTC stocks tend to be the least expensive, especially when compared to what's being offered on the American and New York Stock Exchanges.

Wesvest is more than a club, it is a course. "Because we spend hours studying the market and writing reports," says Ms. DeLuca, "we decided to apply for credit as an independent study project." The Economics Department agreed to sponsor the course and today, officers of Wesvest get a half credit for running their club. At Wesleyan, the investment club is listed in class directories as Econ 411.

Students may be money conscious, but that's not to say they lack political conscience. At Wesleyan, Stanford and other schools, the issue of whether to invest in companies that do business in South Africa periodically comes up. At Stanford, the Blyth Fund adheres to the University's standard investment guidelines. That means that the Blyth Fund won't invest in companies that do not follow fair employment practices or do not adhere to the Sullivan Principles. At Bryn Mawr, on the other hand, companies are examined and discussed on an individual basis. This is the policy at Wesleyan as well. At Bryn Mawr, South Africa and the defense industry are frequent topics of discussion and occasionally sources of dissent. "We will never say across-the-board that we won't buy stock in a particular company or type of company," says Ms. Ginsberg, director of Bryn Mawr's club. "We are only here for four years. We don't want to dictate investment guidelines that will have to be followed by club members years from now. Our by-laws don't allow it. One of the strengths of this club is that we can change and mold our policies to meet current issues."

The very existence of investment clubs on campus raises a philosophical question. Pragmatism may be in style, but does this new learning-by-spending run contrary to the primary goals of a liberal arts education?

"I don't think the attitudes and values we teach to students should ultimately be related to making money," says Prof. Arnold Weinstein, Chairman of the Department of Comparative Literature at Brown University.

Marian Salzman, author of *100 Companies That Hire Smart People*, believes the value of investment clubs must be

How to Stop Worrying and Learn to Love the Term Paper

Conquering your fear of writing a term paper can enhance your ability to think and learn— and it will do wonders for your grades.

BY HAYES B. JACOBS

You've seen them. If you've been in college at least six months, chances are that you've seen a **lot** of them. They're your fellow students. One of them, amazingly, is Laura, that willowy sophomore who sits in front of you in Economics 101, the one you plan to ask out as soon as you work up the nerve. The story about her is that she's on academic probation. How could that be? She seems so bright! Another one is Phil, your poor hard-working, skinny, nervous, nail-biting roommate, the enormously likeable fellow who holds down two jobs and never gets any sleep and who you're sure is going to crack up one of these days. He's smart enough, and he works like a dog, but. . . he's got this **problem.**

We're talking about fear; about students afflicted with fear, brought on regularly when they learn they've got to write a term paper.

Isn't it strange? Laura and Phil, and thousands like them on campuses across the country, have been certified as able to do college work, or they'd never have been admitted. All the more baffling, then, to discover that they have the **problem.** And it's a real problem, no question about it. Some of them really do crack up, or are forced to seek costly, time-consuming psychiatric help. Some of them do desperate things, like paying someone else to write their papers for them. Some of them plagiarize, risking expulsion. Some of them hide, taking refuge in booze or drugs. Some give up the struggle and drop out.

Fear—at least a certain amount of it—is built into our species, and it serves a useful purpose. It alerts us to danger ahead, to the threatening presence of a lurking enemy. Fear helps us prepare, helps us protect ourselves. It's fear that serves no useful purpose—unreasonable fear—that we have to learn to avoid. Unreasonable fear can paralyze us into inanition; it distracts us; it steals valuable time as we sit and worry rather than get down to work.

It's easy to discover why so many college students fear term papers. Many of them have been aware for some time that writing, for them, is a pitfall to be avoided if at all possible. The cold fact is that many of them don't write well, and they know it. Recently, the National Assessment of Educational Progress issued a report, called "Writing Report Card." These researchers collected writing samples from 55,000 public and private school students in the 4th, 8th, and 11th grades. "American students can write at a minimal level but cannot express themselves well enough to in-

sure that their writing will accomplish the intended purpose," the report declared. It went on to say that "Fewer than one-forth of the 11th graders tested performed adequately on writing tasks involving skills required for success in academic studies, business or the professions."

Another significant finding: only 39 percent of the 11th graders said they liked to write.

How natural, then, for the Lauras and Phils, having moved on from high school and into an arena where good writing is routinely demanded, to recoil in fear. Repeatedly, they're asked to do something they don't like to do, and that they're not very good at. The trouble is, of course, that once they give in to their fear, they've put themselves into the worst possible position for meeting the task headlong and performing it successfully.

Michael, an Ivy League freshman, conquered his fear to the extent that he was always able to start his term papers, but he could never finish them. Finally, he turned to a psychiatrist, who pointed out to him that he was engaging in some temporarily satisfying fantasies while researching, and planning, but that when confronted with the actual writing task, he risked spoiling his fantasy, and faced the possibility of failure. So he would just come to a halt, and stop writing altogether. With guidance, and given some insight into what was happening, he was able to moderate the fantasy, temper it so that his expectations weren't quite so high.

Why Term Papers?

Why do college professors ask for term papers? What is this demand for writing all about? To understand what's back of it all can help you begin to cope with it. In preparing this article, I've spoken with many teachers, asking them why they ask for term papers. I heard the same answer from all of them. "We're trying to teach people not just the subject matter of course," they say, "but how to acquire knowledge; how to evaluate information; how to think clearly." A noble enough intention, and worth noting, since it suggests that when we bog down there in the library, filling all our 3x5 cards with **facts,** we must learn to look up frequently and ask ourselves what we really make of all those facts. We soon learn that copying out facts does not a good term paper make.

Dr. Hasye Cooperman, poet and author who has taught Comparative Literature at New York's New School for Social Research for 37 years, says she finds herself writing on students' term papers—even on those that are well written: "All very nice, but what do **you** think?"

The typical term paper, as you must have learned by now, is the result of a lot of work in the library. You read, read, read, and you make notes. This goes on for days, and nights. Your head swims—and probably aches. How, you wonder, do you fit these facts all together to create a coherent paper?

The answer is, you don't, or shouldn't. You don't want to end up with a dry procession of quotations that reflect only what others have thought. Don't be impressed with your lengthy bibliography. Too often, students harbor the idea that to get a good mark on a paper, they must demonstrate what a lot of material they've read. That isn't what impresses the teacher, who has read several hundred times as much. Teachers want to see evidence that you've begun to analyze what you've read, to appraise it, to agree with some of it, to disagree with some of it, and finally, to have made up your own mind. (". . . but what do **you** think?")

You should begin this thinking process at the very start of your research. Begin to make judgments. Put notes on your file cards, regarding your appraisal of the facts they summarize. Nourish a skepticism concerning the "authorities" whose books and articles you're reading. Just because something has appeared in print does not mean that it is necessarily representative of Universal Truth.

Be especially wary of statistics, which can be manipulated toward devious, misleading ends. Take a lesson from those who write for a living, whose workaday world is one "term paper" after another. The seasoned journalist, working daily with a deluge of facts and figures, is always looking carefully at who is feeding him the information. Reporters learn to ask themselves, when confronting news sources, "What's he selling?" or "What's in this for her?"

There's another lesson the student-author can learn from the working journalist, and I am now about to reveal a term paper technique that could well raise your grade an entire point—or even two points.

The Value of Legwork

It's utterly simple, and anyone can do it. It's **legwork.** Get up and get out of the library. You're writing, let's say, on AIDS, and the social consequences of the disease. Somewhere, not too far from you, is a center where research is being done on

viewed with a balanced perspective.

"When it comes to money, people today have gone overboard," she says. "Just look at what happened on Wall Street. Some of the best and brightest bankers and lawyers, many of them just a few years out of college, are being indicted for major crimes. But the skills and even the values that investment clubs teach and represent aren't necessarily incompatible with what a liberal arts education is all about. Discussing, analyzing, learning to compromise—these are important skills, both professionally and personally to any student."

Today, students seem to be drawn to investment clubs for a number of reasons. Most participate to learn more about how the market functions. Others get involved for more career oriented reasons. Investment clubs have helped many students clarify their career goals. Richard Abramson graduated from Franklin & Marshall in 1985 and is currently employed by the Wall Street firm, Sanford Bernstein & Co. He started his own club while at college. "As a result of my investment club experience," he says, "I became totally fascinated by the stock market. Soon I began taking investment courses and eventually landed a summer job on the American Stock Exchange. The club gave me a head start."

Learning To Lose

For some, learning to lose is even a marketable experience. Students report that at job interviews, potential employers are often very curious about the ups and downs of student investing. Warner Johnson, for example, graduated from Brown in 1984 and currently works in fixed-income sales at Paine Webber. His college club was active exclusively in options. "On interviews, I was asked a lot of questions about the club," he says. "So, I explained that at first we weren't very organized. We lost. Later, we became more systematic in our analysis and did well. Interviewers seemed to like the fact that we lost money and learned from our experience. After all, most people who buy options lose."

Among job hunters, there is a lot of talk these days about what employers want? What do they look for: "Any practical experience that teaches students to gain a better sense of high risk versus high gain is valuable," says Barbara-Jan Wilson, the Director of Career Planning at Wesleyan. "These clubs give students a better sense of what it might be like to function in a corporate setting later on."

The future seems to get closer and closer, particularly for students who measure time by semesters. It's no wonder that with skyrocketing tuitions and enormous job pressure, students today opt for real life experience while still on campus. Investment clubs are not a "kid's game." Then again, maybe the meaning of being a kid has changed.

CURRICULUM *Continued from Page 11*

AIDS, and there is also a counseling center, where volunteers are ready to answer questions. Go talk to those researchers, and perhaps to some of the patients. Quotations from such people can find their way into your term paper, and give it timeliness, and human interest. If you can't arrange for direct contact with such informants, write to them, or phone them. (Your footnotes will include phrases such as "Personal communication, Nov. 1986," or "Telephone interview, Jan. 1987." These are just as scholarly, just as impressive, just as important, as a string of book and article titles, ibids, and op. cits.

From your reading, you'll have discovered who, among living persons, is prominent in the field you're studying. Get in touch with them. Ask questions. Most professional people love to talk about their work; they're flattered to be asked to explain it. Prepare yourself for such interviews; don't waste their time asking for biographical details you could look up in advance. Don't try to display your knowledge; you're seeking theirs.

Time—Precious Time

Writing at the last minute is perilous. Unless you have come to the deadline with at least a first draft, you're running the risk of turning in a sloppy, poorly organized paper. It cannot be stressed enough, say all the professors I've talked with: **get an early start.**

You've got to be talented, as a writer, to go directly into a final draft. (You've also got to be superior as speller, copy editor, and typist, and few students are all those things.) Be aware that neatness really does count. Sidney Offit, recalling some of his political science students at New York University, says, "I've always been appalled at students—good students—who do all their research, and turn in a pretty good paper, but one that's riddled with typos and other careless errors. That kind of thing is **not** impressive, and it usually results in a lower grade."

Gilbert Sorrentino, author and poet, and Professor of English at Stanford, frequently teaches small seminars and colloquia—mostly to graduate Literature students—in which he assigns a 20-25 page term paper in lieu of an exam. The quality of the paper thus looms large when he assesses the student's work to arrive at a grade. "Most of my graduate students do well with them. They've learned how to do it by the time they reach that level," he says. "Sometimes they leave things to the last minute, and ask for more time, but the work is good." That is not always true of his undergraduate students, he says, who are often not only late, but do a poor job.

No matter how weak you may be as a writer, if you're bright enough to have completed high school, you're bright enough to become a better writer, even a good writer. And you can do it pretty much on your own—with help from some people I'm now going to mention. With improvement, you'll wipe out some of the fear that may now be holding you back.

A man who can help you a lot is Sheridan Baker. Get his book, *The Complete Stylist & Handbook* (Crowell). It can be used for self-study, and it really is complete, covering all the basics of English composition. If books on composition have turned you off, take my word: this one won't. It's a delight to read, and easy to follow. It will make you **want** to write better; it may even make you like to write.

Another man who can help you is William Zinsser, with his remarkable, unstuffy little paperback, *On Writing Well* (Harper & Row). Zinsser, from a long career as writer and teacher, has developed some valuable perceptions of what leads people toward bad writing, and how to climb out of the bogs of redundancy, over-inflated prose, cliches, and muddled, unclear expression. "Clutter is the disease of American writing," says Zinsser.

And now, E.B. White, in his best-selling manual *The Elements of Style* (Macmillan). Buy it, read it, re-read it, memorize it! It lacks the scope of Baker's book, but for what it attempts to cover, it succeeds admirably.

For now, you are preoccupied with "getting through college." That's appropriate, at this stage in your life, but it's also a narrow concept. I hope you're also taking time to peer into your future, to see what it is you're **really** up to here in school. What may seem like drudgery to you—sweating out an individual term paper—has a much higher purpose than merely locking in a good grade, passing a course, moving up the next academic rung. The idea behind term papers is to **teach you to learn,** and that's something you'd better go on doing, long after you've left a college campus. Be grateful that you have this chance to learn.

Japan, Malaysia, India, Spain, the Soviet Union . . . . The world is your classroom when you enroll in the Institute of Shipboard Education's around-the-world undergraduate study program, Semester at Sea. Courses taught by professors from leading universities complement the itinerary to provide a unique cross-cultural educational experience, sponsored by the University of Pittsburgh. GREAT SUMMER JOBS!

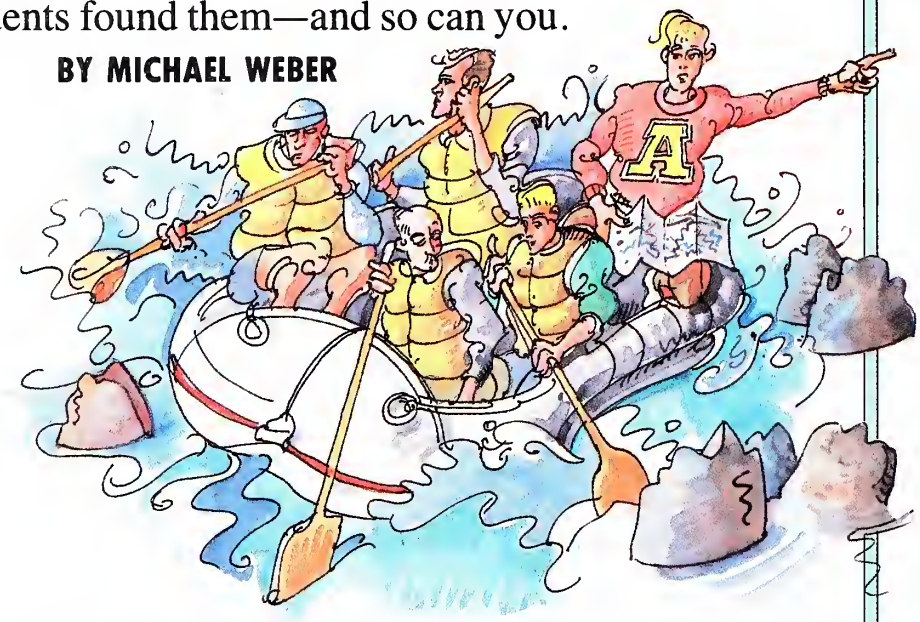
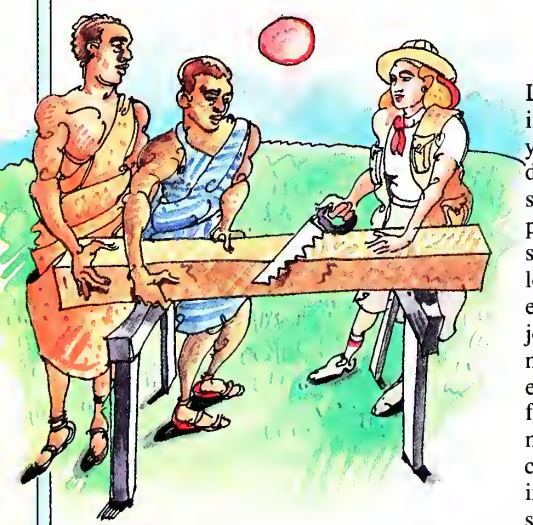
They're out there, waiting to be filled. These students found them—and so can you.

BY MICHAEL WEBER



In May, at the end of his junior year at the University of Washington, where he was majoring in marine biology, Billy Clyde Rimbeaux (his real name) went out to Highway 5, stuck out his thumb and began hitchhiking north to the uncertain possibility of a summer job on a salmon boat.

Three days, six rides and a shivering night in the back of a pick-up truck later, he was on the docks in Valdez, Alaska, walking from boat to boat, looking to be hired on as a fisherman. Billy Clyde lucked out. He got a job. "I was sick the first week out," he remembers, "but I kept that to myself. There was no room on that boat for someone who couldn't pull his own weight." It was a good run of salmon that year. "By the end of the summer, my share of the take was eight thousand dollars. I earned just about enough money to pay for my college expenses the following year." (For further information, write: The Alaska Department of Labor, Employment Service Division, P.O. Box 3-700, Juneau, Alaska 99801.)



For some students, the thought of having to find summer employment—another insipid, three-month-long job to nowhere—can bring on a depression deeper than the Mariana Rift. But a summer job *can be* terrific. It can be an opportunity to experiment with career possibilities, to head off on an adventure, to gain first-hand experience in a chosen field or to volunteer your services to benefit the welfare of others.

Make Your Mark

"Timing is everything," says Chris Lynch, a 1986 Harvard graduate. Timing and originality. During her junior year, Chris, who is a talented writer, decided that she wanted to spend the summer in New York, working for a publishing house. So in early February, she began sending out letters—scores of letters in which she "tried to be funny, even silly." One of them landed her a job with a New York publisher. "The man who hired me told me later that every year he got a lot of very dull letters from qualified college students and that my letter had stood out." (If you are curious about publishing, you might be interested in learning more about the summer internship programs offered by various organizations. For more information, write: The Newspaper Fund, P.O. Box 200, Princeton, New Jersey 88540; or The American Society of Magazine Editors, 575 Lexington Avenue, New York, New York 10022. For information on internships in other fields, everything from advertising to zoology, write for the book, *Internships*, available from *Writer's Digest*, 9933 Alliance Road, Cincinnati, Ohio 45242.)

Some students long for the big city. Others, like Rick Byers, love the idea of solitude and communing with nature. While driving through Montana one spring during his years as a computer science major at Rice University, Rick looked out the window and saw herds of sheep. That's it, Rick thought—the summer job for him. The next summer, Rick became a shepherd. Today, Rick thinks of that summer whenever he hears the song, "Home on the Range"—a summer spent living out of the back of a four-wheel-drive truck, surrounded by plenty of deer and antelope and sheep, and seldom hearing another human voice. "Yeah, it was lonely," he recalls. "But I'd do it again in a second. It was just a really special time for me. It gave me a lot of time to think, to read and to fall in love with Margaret. She's a Border Collie who taught me everything I know about sheep." (For more information, write: the American Shepherd Producer's Council, 200 Clayton, Denver, Colorado (80206).

If you are willing to *spend* money, rather than earn it, you might want to follow in the footsteps of Lonnie Frey who, a few months before she was to graduate with a degree in French from Hood College in Oregon, was accepted as a volunteer with Operation Crossroads Africa. The summer job *cost* Frey approximately $3,000, which covered her airfare to and from, and all living expenses in, Senegal, where she spent three months in a rural village, working alongside African volunteers to help build a

schoolhouse. "That summer changed my life," she says. "It gave my life a purpose." Today Lonnie continues to be involved in African affairs. Just recently, in fact, she played host to the mayors of seven African cities who were visiting the United States on a U.S. government-sponsored tour. (For more information, write: Operation Crossroads Africa, 150 Fifth Avenue, New York, New York 10011. For information on other, equally worthwhile volunteer work, write: The National Center for Citizen Involvement, P.O. Box 4179, Boulder, Colorado 80306.)

Dream Jobs

My own favorite summer job was one I had while a student at the University of California at Berkeley—as a whitewater river guide in California and Utah. The pay was moderate (depending upon high water and good bookings, we could save about $3,000 by the end of the summer), but the living conditions were excellent: days on the water; nights on a sandy river bank tucked away from the events of the world; every day a new challenge filled with laughter and yahoos of accomplishment.

A word of warning, though. If you choose the river life, even for one summer, you may lose your ambition to make money, build a career, be a success. Because once you have spent your summer in the middle of nowhere with good people, living in something fairly close to "harmony with nature," you can begin to wonder, "What's the point of anything else? The river is everything." (For further information, write: Eastern Professional River Outfitters Association, P.O. Box 119, Oak Hill, West Virginia 25911; or the American Whitewater Affiliation, P.O. Box 1483, Haggerstown, Maryland 21740. Unless you are already skilled enough to pass licensing exams, you should also inquire about "whitewater river schools" to obtain necessary training. For other outdoor work, check with the Student Conservation Association, Box 550, Charleston, New Hampshire 03603, which offers internships with the National Park Service, the Forestry Service, the Bureau of Land Management and the U.S. Fish and Wildlife Service.)

Ask Uncle Sam

If you're clever enough, you may also be able to create your own summer job. While attending Merrit College in The San Francisco Bay area in 1976, Donald Flasher wrote out a grant application as part of a class assignment requesting $2,000 from the local community for the purpose of "civic improvement." Little did he expect that the application would actually be funded. "It was crazy," he says. "I ended up with an A in the course, two thousand dollars in funds and a three-month-long backache." You see, Donald had won a contract, in that Bicentennial year, to paint the city's fire hydrants in various patriotic motifs.

During the summer before her senior year at the University of California at Santa Cruz, Davia Nelson also walked into the city government office looking for a job—"any job, I was desperate." The Santa Cruz officials had just the job for her—washing city busses. They gave her a bucket, some suds and a brush on a long extension pole. The work was hard. But there was a payoff. "The fun part," she says, "was *after* I finished washing the busses, when I got to drive them into their parking places."

If it's just something unusual you're looking for, you might want to consider any of the following, all of which are actual jobs that have been held by actual students:

- Raking sand at a beach on the French Riviera
- Playing a cartoon character, like Pluto, at a theme park
- Driving the escort vehicle for wide loads on the Interstate
- Cooking for a tugboat crew
- Becoming a companion to the absurdly rich and elderly
- Working the graveyard shift at a mortuary

The point is, there are plenty of possibilities besides the predictable jobs in offices or fast-food restaurants. All you have to do is keep your eyes and ears open, and follow a few simple guidelines.

Four-Step Plan

1. Before setting out on your job hunt, assess your skills. Are you fluent in a foreign language? Translating and interpreting services pay well. Do you have miraculous mechanical abilities? Your tinkering is a talent that can earn you a lot of money.

2. Start thinking and acting early. January is the best time to start sending out inquiries, resumes and applications. Applications for most federal jobs with the National Parks, Forest Service, Environmental Protection Agency, Bureau of Land Management and Congress have a January deadline. (For a listing of *all* Federal jobs, ask for Announcement 414 at your local Federal Job Information Center, which is listed in your telephone directory. Or write: Federal Job Information Center, Office of Personnel Management, 1900 E Street, Washington, D.C. 20415.)

3. Avail yourself of all possible resources. Check in with campus career counselors. Go to the library and ask for guides to summer employment. Tell everyone that you are looking for a summer job. Tell your friends, tell your parents, tell your parents' friends. Work as hard to find the best summer job as you did to get accepted at the best college.

4. Relax. Nervousness won't help you get—and may cause you to lose—a summer job. When *you* feel confident of your worth and abilities (and have some credentials to back up that confidence), chances are that a prospective employer will feel exactly the same way.

It takes persistence, initiative and imagination to hook that great summer job. But when you look back on all you will have gained during those three months of employment—not only in terms of money but also in terms of experience and adventure—you'll realize that all the effort was worthwhile.

TELEVISION-ASSISTED DIRECTED STUDY COURSES

Memphis State University, in conjunction with WKNO-TV, offers television-assisted courses for adults working toward bachelor's degrees and learning for personal enrichment. These courses, designed by specialists in a variety of fields, are rigorous and challenging. They have been developed to serve the special needs of adults who, because of work and family obligations, distance, or handicap choose not to attend on-campus classes. Persons in Memphis and the surrounding areas of Arkansas, Mississippi, and west Tennessee within the broadcast area of WKNO-TV may enroll.

Independent study is a major component of each course. Students are guided in their studies by a detailed week-by-week syllabus written by their MSU instructor, a study guide, textbooks, and written assignments. In most courses, television programs supplement the reading and are broadcast on WKNO-TV and repeated on cable television. Video tapes of the television programs are available for viewing in the learning media center of the MSU library. Written assignments are evaluated by the course instructor with whom the student may confer by phone or in person. Students may also attend optional discussion sessions led by the instructor. These courses are applicable to degree programs at MSU as courses in the major, courses required by a college, or as electives. Students should check requirements for their degree programs before choosing courses.

Registration for these courses may be completed by mail, or in person prior to on-campus registration and during on-campus registration. Persons who have never attended MSU or need to seek readmission should apply in advance of registration. Books may be ordered by mail. The fee for both in-state and out-of-state students is the same; see in-state fees under "Fees and Deposits" in this schedule. Contact the University College at 454-2716 for further information.

PARKING REGULATIONS

MEMPHIS STATE UNIVERSITY

* Every vehicle parked on campus property must be registered with the Traffic Office and have a parking decal properly displayed. Visitor passes and temporary passes are available and may be obtained at the Information Center or the Traffic Office. Temporary passes must be obtained for any replacement vehicle being driven by a student, faculty member or staff employee when their registered vehicle is not available.

* Vehicles must be parked within parking spaces delineated by white paint lines.

* **Campus Traffic and Parking Regulations** are available in the Traffic/Security Office, 151 Administration Building and the Information Center located at the corner of Patterson and Central.

* Improperly parked vehicles may be towed at owner's expense. The issuance of a parking decal does not guarantee a parking space on university property. The inability to locate a legal parking space does not diminish the responsibility to park in accordance with campus parking regulations.

* Parking lots or spaces are restricted according to status, and use is allowed only to those having a parking decal corresponding to the color code of the lot. The color code is apparent on the official **Campus Traffic and Parking Regulations** map and on each parking lot sign.

* Security officers, traffic officers, faculty members or staff employees are not empowered to allow anyone to violate the traffic and parking regulations.

* Storing articles of value in parked automobiles is not recommended. However, if articles must be left in an automobile they should be placed out of sight and/or locked in the trunk. Memphis State University does not assume responsibility for loss of personal property.

* Motorists may obtain assistance or information from any campus officer on patrol or by calling 454-2212.

AIM HIGH

Climb higher, faster in Air Force ROTC.

Air Force ROTC could be the gateway to your future. When you graduate you'll be commissioned as a second lieutenant in the Air Force. That means you'll manage people, projects and offices; you'll be in charge, making decisions, shouldering the responsibility. You'll belong to an organization dedicated to achievement, innovation and high technology.

And as an officer you'll have the satisfaction of knowing that your work makes a difference to the Air Force and to your country.

Check with your guidance counselor or write: Air Force ROTC, HQ AFROTC/RROO, Maxwell AFB, AL 36112-6663.

Aim High. Be in Air Force ROTC.
